President Enrique Peña Nieto congratulated the National Coordinator of the National Commission for the Knowledge and Use of Biodiversity (Conabio), José Sarukhán Kermez, who received the Tyler Award for Environmental Achievement 2017.

In his / her / his / her / its account account @EPN highlighted that the award is well-deserved recognition of his to work in favor of biodiversity and his commitment to institutional strengthening.

"I congratulate Dr. Jose Sarukhán, founder and current National Coordinator of @Conabio, for receiving the Tyler Award for Environmental Achievement 2017," I wrote in the social network.

The Tyler Award, by the Tyler Foundation and the University of Southern California (USC), is the most important award in the United States for scientists studying the biological wealth of the planet.
